Thailand MICE 7 Magnificent Themes 2019 Distinctive - Creative - Exclusive
A MICE JOURNEY BEGINS
When the demands of MICE travellers have shifted...
They are now looking for something outside the “square room”.
They are now looking for something other than being a “listener”.
What MICE travellers are looking for is “experiences” and the chance to get hands-on, to exchange, to learn, and to truly be touched. Not only are they looking for new experiences, they are searching for new places that can transform memories into stories that can be retold again and again.

“Thailand 7 MICE Magnificent Themes”, the project to develop new MICE products in MICE cities and surrounding cities, was established in order to introduce MICE travellers to experience the MICE journeys in Thailand which offering 7 themes pleasure, categorized into behaviors and demands of MICE travellers. These 7 themes offer MICE activities that will create wonderful memories. The Thailand 7 MICE Magnificent Themes 2019 is the second phase of the project that has selected MICE products from 5 MICE cities and 9 secondary cities. This book shows 115 places to hold MICE activities. Each place boasting its own unique identity. We truly believe that these MICE products will shed a new light on Thailand in the perspective of MICE travellers and inspire Thailand to become a MICE destination in the future.
CSR and Green meetings often go hand in hand, as corporate social responsibility means businesses must operate with social accountability. Meanwhile, green meetings are MICE activities that have the least effect on the environment while adding value to the local community hosting the meeting in the long term.

Beach activities are typically held on the beach, in the ocean, or on islands. The fame of Thailand for its beaches, beach activities can offer a different kind of sun sea sand experiences.
Exhilarating Adventures

The Adventure Travel Trade Association has defined adventure travel as a type of tourism with extraordinary surroundings and two out of these three factors: offering vigorous activities, offering natural surroundings, or offering a chance to immerse in the culture with locals.

Treasured Team Building

The meaning of Team Building is to create harmony in a group through various activities with the objectives for improving the ability of the group to work together.

Lavish Luxury

In this case, luxury means more than monetary value, as this type of tourism is aimed at creating experiences and offering an opportunity for participants to enjoy luxury as an experience rather than owning luxurious items, thus, this MICE activity is more unique than others.

Culinary Journeys

Thai cuisine is an important aspect of Thai culture. Culinary journey offer experiences related to gastronomy activities. This theme presents Thai food as the main focus which can offer a wonderful culinary experiences for MICE travellers.

Thailand 7 MICE Magnificent Themes
The colorful cities in the East such as Pattaya City and the EEC area have made this region into a potential MICE destination. Meanwhile, the charming communities surrounding the cities can make both pre-tours and post-tours more delightful for MICE travellers.
This community aims to prove that the people of Pattaya also cultivate rice fields. Here at Nong Pla Lai locals still grow rice and coconut, opening their homes to visitors to hold rice growing and harvesting activities, rice fertilizing, and serving local food such as banana and chicken curry as well as coconut desserts. Here, visitors can experience Pattaya and enjoy the local way of life instead of seaside attractions.

**MICE Activities**

- Learn how to plant and harvest rice in the fields at Nong Pla Lai Community where locals aim to prove that the people of Pattaya also cultivate rice fields
- Fertilize rice with natural fertilizers using rubber bands, one of the local wisdom of the Nong Pla Lai community
- Learn how to play Thai musical instruments and enjoy performances from the “Wongsawangsilp” group, the musicians in the community
- Talk, learn, and exchange knowledge with the community philosopher who is an expert in local cuisine and desserts, such as the baabin coconut dessert that is cooked in sand, and use traditional tools to slice coconut to make traditional Thai desserts such as the coconut and flour desserts
- Try local cuisines original to the Nong Pla Lai community such as banana and chicken curry, steamed fish cake, sour soup, and fish soup
